Quality, Performance and Linebred
Genetics for America's Cowmen!

WELCOME

The Jamison family welcomes you to our annual spring bull sale. Our goal, as always, is to offer the best of Hereford and beef cattle genetics. The bulls are bred and developed for ranchers stressing calving ease and maternal traits in our cowherd and we demand the bulls have optimal growth, solid carcass traits and be sound in every way. Our program strives for all the pigment we can get and good feet and traveling ability are a must. The bulls are raised and developed in western Kansas hard grass country. The "hot house, feedlot flower" environment is not our program.

We believe in these strong Line One, Horned Hereford genetics. The optimal cross for a Hereford bull is a set of Black Cows ...they will take the horns off and our bulls will add vigor, pounds and profitability.

2011 has been a year filled with blessings for us as we didn't bear the full impact of the southern drought. We are in a build-up phase in our cowherd and have very adequate feed supplies. The cattle market can only be looked at with awe and the future looks very bright.

The sale bulls have been carcass ultrasounded, fertility tested, BVD-PI tested and will be trick tested if your state asks for it. All bulls are virgin sires and backed by the traditional Jamison "Whole Bull" guarantee. We offer free delivery on volume purchases and are confident we have bulls that will fit any challenge your environment has to offer.

We have several bulls in the sale from guest consigners. These bulls have been developed here in our management program and carry our guarantee.

Call if you have any questions, we look forward to seeing you on February 24.

Sincerely,

Gordon Jamison and the Jamison Family & Crew

Neither the sale management, owners, nor any person connected with this sale, assumes any liability, legal or otherwise.

GUARANTEE: Every animal in this sale is, to our knowledge, free from any disease or defect. Any known defect will be called at sale time. All bulls have been fertility tested by Hawkeye Breeders Services, Adel, Iowa prior to the sale. They are guaranteed breeders. If an animal fails to breed after a six month trial, it may be returned to the seller if it is in good condition and in compliance with Kansas health regulations. The seller reserves the right to try said animal for 90 days, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, an animal of comparable rank will be substituted or the purchase price will be credited toward purchase of an animal in the next sale. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No warranty of any nature is expressed or implied. Through pedigree analysis and DNA testing, all sale cattle are IE and Diluter free.
