Annual
Bull Sale

Combined Advantage XVII

Wednesday, February 9, 2011 • 2:00 pm MT

Bowman Auction Market • Bowman, North Dakota

Welcome

We would like to welcome you to our annual bull sale and 17th year selling virgin 2 year old bulls. As in the past, this is the first public offering of these bulls.

It is a very interesting time in our country with our national economic status and political dilemmas. We in agriculture have many positive things happening to be thankful for. Hopefully when you read this, our commodity prices are

continuing to climb. With our national cowherd numbers at all time record low numbers, we are on track to again see record cattle prices among high grain/feed prices.

We feel this is the most unique set of bulls that we have offered to date. They are headlined by an awesome set of A.I. sons of Brushpopper 295 and New Design 878. These bulls will be a positive asset in any program. Our two year old bulls are developed utilizing a high roughage, low starch ration designed by Prairie Nutrition Center/Warren Woroneicki. These bulls have had the opportunity to exercise in large lots and on pasture. It has been our experience that this program and the extra year of growth will help them maintain longevity. Our hopes are to provide you with a more problem free herd bull investment.

Again this year the Wick's family is offering a select group of Sim-Angus yearling bulls. They have become a welcome addition to our sale. These bulls will give our customers the choice and flexibility of a British-Continental hybrid to maximize heterosis and profit potential in today's markets.

We would like to thank you for your time and encourage you to come see the bulls for yourself. The coffee is always on.

Happy New Year!
Chad

General Information

Offering **53** Virgin Two Year Old
Angus Bulls
40 Yearling SimAngus Bulls
4 Virgin Two Year Old
SimAngus Bulls
100 Angus
Open Heifers

Sale Day Phones: 701-523-5922

Auctioneer: Lynn Weishaar, Reva, SD • 605-866-4670

Representatives:

Vern Frey, American Angus Assoc., 701-721-0344

Dan Piourtek, Tri-State Livestock News, 605-544-3316

Seth Weishaar, Independent, 605-210-1124

Health: At weaning these bulls received Vista once, SQ and Vision 7 with Spur and were poured. They were boosted a month later. We also vaccinate with Multimin supplement for additional copper. These bulls have been poured with Ivomec several times. Health certificates will be provided, if necessary.

Spruce Hill Management - Dr. William Rotenberger, DVM:

- Complete herd health programs available
- Ultrasound Pregnancy Testing - Fetal Aging; Carcass Evaluation
- Bangs Vaccination
- Semen Evaluation - *Every Spruce Hill Ranch bull sells with FREE life-time semen evaluations.

Terms: Cattle sell under the standard terms and conditions of the American Angus Association. All cattle will be at the purchaser's risk as soon as sold.

Brand Inspection: A brand inspector will be available Sale Day.

Guarantee: All bulls are guaranteed against any injury that would keep them from being a breeder for the first breeding season. If a problem occurs, please contact us immediately, a suitable replacement will be furnished or credit minus any salvage will be given toward next year's sale. The buyer will choose the preferred option. The guarantee does not cover the death of the bull. All claims must be made by Sept. 1, 2011. All two year olds have passed a semen evaluation exam. Yearling bulls will be semen tested prior to deliver May 1, 2011 or can be returned for a complimentary spring semen evaluation.

Retained Interest: Spruce Hill Angus and Wicks Cattle Co. are retaining 1/3 interest share in every bull selling in this sale. Full possession and full salvage value sell with the bull.

Delivery: As in the past, we are offering free delivery on all the bulls in the sale. You are welcome to take your bulls home sale day, however it would be our pleasure to deliver your bull(s). We would enjoy the opportunity to spend some time with you individually and see your operation.

Bulls can be kept at the ranch until May 1st. If you choose to leave your bulls with us, we will deliver them May 1st following a semen evaluation for an additional \$150 which will be collected sale day.

Registration: All bulls can be registered unless otherwise noted. If you would like your purchases registered and transferred in your name, let us know. We would be happy to do this for you. The American Angus Association is developing programs to help you market progeny from registered bulls. In order to qualify for programs, your herd bulls need to be transferred into your name. If you have questions about these programs or transferring papers, please ask, we will be glad to help.

Announcements: Announcements made sale day take precedence over any printed material.

ANY PERSON ATTENDING THE SALE DOES SO AT HIS OWN RISK. Neither the owners, nor any person connected with this sale assumes any liability, legal or otherwise.

Host Motels: North Winds Lodge, Bowman, ND - 1-888-684-9463 and Tipperary Lodge Motel, Buffalo, SD - 888-917-5758. Ask for Combined Advantage bull sale rate.

Brushpopper 295 is a calving ease sire owned by Dan and Jesse Bruns of Madison, South Dakota. Dad had the opportunity to see 295 as well as his sons and daughters while ultra sound testing at Bruns', and he was truly impressed. He is siring moderate framed, muscular sons that have excelled from day one. Our daughters are coming with their first calves and have a deep, moderate, easy fleshing look that we are very satisfied with.

878 is one of the most highly proven, multi-trait EPD sires in the Angus breed. He is best known for his high producing females. He has been the #1 Pathfinder sire for the past two years. We used 878 in 2001, and those daughters are some of the best females in our herd. His sons are big, strong individuals with solid performance and added end product merit. If you want to increase the productivity of your cowherd and increase the harvest quality in your steer calves, buy his sons with confidence.

How much can you afford to pay for a top bull?

COWBOY FORMULA

Increase in pounds per calf from a top-performance bull

X Number of cows bred to him per year

X Number of years to keep the bull

X Expected selling price of calves

= Additional dollars you can pay for a better bull

Example: A bull who will add 25 lbs. to the weaning weight of each of his calves mated to 25 cows per year for 4 years, and you sell the calves for \$1.10 per pound.

$$25 \times 25 = 625 \times 4 = 2500 \times 1.10 = \$2750$$

This bull is worth \$2750 more than the average bull
who will keep your weaning weights the same.

Take this formula and put your own figures in and see what you can afford to pay. This equation does not even consider the increase in value due to calving-ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

Heavy, ranchers kind of bull. Will cover the big country.

Now Genetics, Source
and Group Age can all be
documented with ONE Tag.

Cow/calf producers . . .

Use AngusSourceSM to document the genetics,
source and group age of your Angus-sired feeder
calves and replacement females.

After enrollment, you'll receive a customized ear
tag and marketing opportunities to increase the
value of your calves at sale time.

AngusSourceSM is a USDA Process Verified Program
that documents a minimum of
50% Angus-sired Genetics, Source and Group Age.
For specific claims visit:
<http://processverified.usda.gov> or
www.angussource.com

Magnum is one of the most exciting young sires ever used at Spruce Hill. He was the high selling bull at \$10,750 in the 2004 Falcon Seaboard production sale. He is tremendously thick, with great eye appeal and the performance to match. He had an actual weaning weight of 860 lbs. and a yearling weight of 1324 lbs. He scanned a 3.09 IMF and a 17.1 REA. He is sired by one of the most influential carcass sires in the breed, Rockn D Ambush. His dam, Boyd Forever Lady 8003, is a full sister to Boyd New Day, the recognized high growth, ribeye and maternal sire in the Genex/CRI lineup. 8003 sold in the Kahn Dispersion for \$90,000. She is also the mother to the very Popular SAV 8180 Traveler 004. Magnum's calves are born easy, show tremendous muscle shape, performance and style.

703 (AKA MR.) was our pick out of the 2008 North Dakota Bull Test. He had a weaning weight of 835 and a 1323 pound final weight off test. He also scanned exceptionally well with an adjusted ribeye of 15.7 which ratioed 109, and a 5.07% IMF rationing 118. His progeny are maintaining a 115 IMF ratio which has given him a .60 marbling EPD and an impressive +54.54 dollar Beef value. MR. is a very athletic, rugged 2250 pound bull that knows his job and does it well.

Sure shot heifer bull.

SimAngus

Videos of all sale animals available on the internet at www.combinedadvantage.net
 Ultrasound data and scrotal measurements available on the internet prior to sale day - www.combinedadvantage.net

Comparing EPD's - We cannot compare the SimAngus numbers to the Angus numbers. The two associations have different systems and rankings.
 It would be nice if all breeds would have the same format, but they don't.

Heterosis - same as Hybrid Vigor - The Genetic Benefit you get from crossbreeding - lbs., health, fertility, vigor, etc.

Welcome

On behalf of Wicks Cattle and Spruce Hill Ranch, it's our pleasure to welcome you to our sale. It's been a great 2010. Lots of hay put up, lots of grass still in the pastures with an ample amount of

snow cover on them. Also, the cattle market is extremely good. A lot of us have sold our calves for a great price and for the producers that haven't – the more power to you. The cattle industry is exciting!

With the expenses from cost of living to the cost of running a cow going up, we've got to watch our true input costs. Nothing is free anymore in this world except for heterosis. This is why the SimAngus program works so well. From calving, weaning, conception rates, maternal traits, longevity, disposition, feed conversion and carcass data - the SimAngus is the cattle industries future. More and more good cattle people are discovering that it just flat works.

The bulls were weaned September 27, 2010. They have been fed the CHS product "Bull Challenger" from the first day of weaning to the day they are delivered. They have also been getting about 3 pounds of corn screenings along with free choice grass hay. They've been developed at a slow pace with longevity and durability in mind.

The bulls will be ultrasounded and scrotal measurements will be taken prior to the sale. ADG's and current weights will be available sale day on a spreadsheet or go to www.combine-dadvantage.net.

Before the bulls are delivered they'll be semen checked, poured and two rounds of foot rot shots. The bulls were drenched with Safeguard in November, so they'll be ready for service.

The SimAngus yearling bulls will stay at the Wicks Ranch until Sunday, February 6, 2010, then we'll take them to Bowman Livestock. So feel free to stop in and take a look prior to the sale. The Wicks Ranch is located south of Richardton, ND – take exit 84 off of I-94, go south on Highway 8, 2.5 miles and we are right next to the highway on the east side of the road.

We believe in uniformity and consistency. We have and will continue to use our senior herd sire, Net Merit. Being leased to ABS, there is a lot of "buzz" about him. Net Merit stamps them just like himself. I calved the first set of Net Merit daughters this spring, and they are good. I didn't have any calving problems and they stick to their babies from the first time they hit the ground until weaning. They are extremely easy-keeping, and all milk very well. They are a true pleasure to have. Also, we added "Hot Rod" this year. He is a $\frac{3}{4}$ Sim $\frac{1}{4}$ Angus that we used on our Merit first-calf heifers and other percentage heifers and cows. Calving ease and growth, you'll like the Hot Rods.

We truly appreciate your interest in our program and we thank all the buyers from previous years and look forward to serving the many new customers. At Wicks Cattle and Spruce Hill Ranch the future looks very bright in the cattle world and I assure you we are here for the duration. Feel free to stop in or call with questions you might have. Hope to see you on February 9, 2011 at Bowman Livestock, Bowman, North Dakota.

**Happy New Years and God Bless,
Zane, Mary Jo, Josie and Mya Wicks**

We selected Net Merit from Janssen's in Iowa in '07 as he was the sale topper at \$13,500. He is the cornerstone in our SimAngus program. He is extremely long spined, deep quartered, moderate and disposition second to

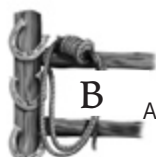

none. His progeny are very impressive in all those factors as he stamps them with muscle, big hips, extra rib and power. Expect his sons to carry on the same characteristics as Merit. If you want to add or improve your herd in all those fields; add great carcass data and keep the females because they are extremely functional, fertile and gentle, consider SimAngus. Ex-director of Field Services with American Simmental Association, Marty Ropp, said that Net Merit is one of the thickest, if not the thickest, Dream On son that he has seen. Marty stopped by again this fall and was amazed at his moderation and overall width and thickness. We leased Net Merit to ABS this spring. Lorna Marshall was at our sale in 2010 and analyzed Merit himself and all of his calves. After losing ABS's greatest Simmental sire and possibly the most monumental bull in the breed, Dream On, they were on the hunt for a homozygous black and polled Dream On son and a good one to take his position in their lineup...Net Merit fit the bill. There are literally thousands of Dream On sons out there, and we are very fortunate that ABS chose our main herd sire, Net Merit, for their program. Thank you, ABS.

Our sale is the only sale in 2011 that will offer Net Merit sons. So set on the ground floor of this exciting new ABS herd sire. For all our customers who bought Merit sons in our last two sales, congratulations, you're already ahead in the race for these well sought after genetics. Thanks to all our customers, past and future.

I purchased "Hot Rod" from Mike Henderson in Iowa. We put him in with our yearling heifers and a select few percentage cows, and it worked like a charm. Didn't touch a calf, and the calves flat grow. Hot Rod is a tick bigger framed, extremely long and packs a square rump. All his calves are really good with an ample amount of depth and muscle. With him being 3/4 Sim, I can put him anywhere to make those well sought after SimAngus bulls. Calving ease, growth, maternal and disposition all in this package. Homozygous black and heterosis polled. I think you'll like the "Hot Rod".
