Welcome

Welcome fellow cattle enthusiasts to our annual bull sale. Mary Jo, Josie, Mya and myself cordially invite you to spend the day with us February 7th for the Wicks Cattle Production Sale.

It's been a phenomenal year; hay, grass and great cattle prices. We can honestly say it is truly a real treat to raise cattle that perform and are a pleasure to work with. Hands down, this is the best set of SimAngus bulls ever raised here. True power and muscle, with the good ol' calving ease bred in them. We've had several very critical cattle people come through this offering, from the summer pasture to today's date and they are amazed at the quality and I'm hoping you will too!

We are hard-core maternal, cows that don't pass our criteria down the road. We believe the cow makes up the foundation of a true set of herd bulls. Here at Wicks Cattle we are strictly a SimAngus program. We don't breed the bottom end Angus cows to Simmental to make performance, we breed our performance cows to make higher performance cattle.

This set of bulls are "GENTLE." Folks I'm not getting any faster, so I look at disposition awful close. Just like prior years the Wicks bulls are nice to have around, with the "puppy dog" attitude.

The bulls have been developed the same as prior years with the "Bull Challenger" product from CHS. They've been eating ground CRP hay, 10 lbs. of bull challenger and 2.5 lbs. of corn screenings per head per day. They aren't pushed hard and have plenty of room to exercise in. I've talked to each and every one of our bull customers through the years and they are pleased with the outcome due to the conditioning of the Wicks SimAngus bulls.

This year all the cattle will be sold on "Big Screens." The bulls and females will not go through a sale ring, instead will be sold on big screens, same concept as a normal sale with less stress on the cattle and help. The cattle will be on display sale day, no surprises here, what you see is what you get!

The videos of the cattle will be on our website at www.wickscattle.com prior to the sale. The ultrasound data, ADG, weights and other information will also be available before sale day on www.wickscattle.com.

You are always welcome to stop in anytime to visit or look at the cattle. Our ranch is very convenient. From I-94 take the Richardson Exit 84, go south 2.7 miles and we are on the east side of the road. The coffee is always brewing.

We hope to see ya Thursday, February 7th, 2012 for the "Big Screen Video Sale" of Wicks Cattle. Thank you to all who have been involved in our program, from helping work cattle through the years and just being great friends and neighbors, to the cattle people that have made purchases in prior years. I can honestly say Wicks Cattle is here to stay with many more years to come in producing the SimAngus cattle that will keep you in business. "We treat our customers the way we want to be treated."

God bless,
Zane, Mary Jo, Josie and Mya Wicks

GUARANTEE: Bulls are guaranteed against any injury that would keep them from servicing cows for the first breeding season. If a problem occurs contact Wicks Cattle immediately and a suitable replacement will be furnished or credit minus any salvage will be given towards next year's sale. The buyer may choose the options. This guarantee does not cover death of the animal. All claims must be submitted by September 1, 2012. Bulls will be semen checked prior to delivery, which is May 1, 2012. Guarantee is null and void if injury/death is sustained due to negligence under the care of new owner.

BRAND INSPECTION: A brand inspector will be available Sale Day.

RETAINED INTEREST: Wicks Cattle is retaining 1/3 interest share in every bull selling in this sale. Full possession and full salvage value sell with the bull.

ANNOUNCEMENTS: Announcements made sale day take precedence over any printed material.

ANY PERSON ATTENDING THE SALE DOES SO AT HIS OWN RISK. Neither the owners, nor any person connected with this sale assumes any liability, legal or otherwise.

DELIVERY: Wicks Cattle will keep and feed your bulls after the sale until May 1, 2012. We will tend to your purchases like they are our own. The bulls will be semen tested, poured and two rounds of the foot rot shot will be given. If you choose to do this there will be \$150 per bull collected on sale day. Wicks Cattle has done this program in prior years, the results have been great and the new owners are pleased with their new herd bull purchases. Free delivery is provided by us or you are welcome to take your bulls home the day of the sale and bring them back for the semen test, May 1, 2012.

CATTLE HEALTH: BULLS: *Before weaning:* Vista once, Vision 7, No creep; *At weaning (10/2/11):* Booster, Poured with Ivomec, drenched with Safeguard, Fusogard; Poured 2 more times since sale date. **OPEN HEIFERS:** *Before weaning:* Vista once, Vision 7, No creep; *At weaning (10/2/11 & 10/19/11):* Booster, poured with Ivomec, drenched with Safeguard, Bangs vaccinated on 12/22/11, No brands. **BRED HEIFERS:** Preg Guard & Bangs vaccinated as calves, Ultrasounded on 8/12/11 by Dr. Pat Bierman, Vira Shield 6 and VL5 on 8/12/11, Scour guard shot on 12/10/11, poured with Ivomec on 12/10/11, drenched with Safeguard on 12/10/11, will be preg checked again before sale, carry the WIX brand, freeze branded & ear tagged to match.

ALL VIDEO SALE: All lots will be videotaped and be played on three big screens sale day. You can view these videos prior to the sale at www.wickscattle.com. There will not be any animals entering the sale ring. This makes sale day a much lighter load for us and the cattle. All lots will be displayed in pens like normal for you to view sale day. We strongly urge you to go through the cattle and make your critiques outside; this will help you during the sale.

LIVE ONLINE BIDDING AVAILABLE at www.LMAAuctions.com Online bidders must register at least 48 hours in advance of sale time. Go to www.LMAAuctions.com, create a viewer account and click on Register to Bid next to Wicks Cattle Annual Bull Sale to register for an online buyer number.

LIVE CONFERENCE LINE AVAILABLE! We will have a live conference line for anyone not able to make it to the sale. You will have the opportunity to stay on a phone line with a moderator and listen in on the entire sale. You will be assigned a bidder's number and can bid through the moderator. Your best bet for getting the right animal for your program will always be attending the sale in person, but this option gives you the best possible opportunity to be involved just like being here with us. Please call 701-974-2332, two to three DAYS before the sale and you will be given the number to call on sale day and a bidder's number.

HOTEL ACCOMMODATIONS: Due to oil activity, please make reservations as soon as possible.

Wicks Cattle Host Hotel: Travel Host Motel • 701-225-9123 A block of rooms have been reserved. Please let them know by 2/05/12 if you plan on reserving a room. Ask for WICKS CATTLE rooms.

JF NET MERIT 618S

28 sons sell

Birth Date: 01/15/2006 • ASA No: 2341086 • Homo: Blk & Pld

We selected Net Merit from Janssen's in Iowa in '07 as he was the sale topper at \$13,500. He is the cornerstone in our SimAngus program. He is extremely long spined, deep quartered, moderate and disposition second to none. His progeny are very impressive in all those factors as he stamps them with muscle, big hips, extra rib and power. Expect his sons to carry on the same characteristics as Merit. If you want to add or improve your herd in all those fields; add great carcass data and keep the females because they are extremely functional, fertile and gentle, consider SimAngus. Ex-director of Field Services with American Simmental Association, Marty Ropp, said that Net Merit is one of the thickest, if not the thickest, Dream On son that he has seen. Marty stopped by again and was amazed at his moderation and overall width and thickness. We leased Net Merit to ABS in 2010. After losing ABS's greatest Simmental sire and possibly the most monumental bull in the breed, Dream On, they were on the hunt for a homozygous black and polled Dream On son and a good one to take his position in their lineup...Net Merit fit the bill. There are literally thousands of Dream On sons out there, and we are very fortunate that ABS chose our main herd sire, Net Merit, for their program. Thank you, ABS.

For all our customers who bought Merit sons in our last three sales, congratulations, you're already ahead in the race for these well sought after genetics. Thanks to all our customers, past and future. ABS recently released Net Merit to a high Titer count, so he is back in our possession.

I purchased "Hot Rod" from Mike Henderson in Iowa. We put him in with our yearling heifers and a select few percentage cows, and it worked like a charm. Didn't touch a calf, and the calves flat grow. Hot Rod is a tick bigger framed, extremely long and packs a square rump. All his calves are really good with an ample amount of depth and muscle. With him being 3/4 Sim, I can put him anywhere to make those well sought after SimAngus bulls. Calving ease, growth, maternal and disposition all in this package. Homozygous black and heterosis polled. I think you'll like the "Hot Rod".

We selected Rookie because of his big spread numbers for birth to yearling. We Al'd our first calf heifers and some select cows to him. The calves come little and really grow. The calves are big, stout and wide. The Rookie daughters are said to be great mothers. We've got a handful of the Rookie daughters and they are very refined and feminine. We used him again so expect to see more Rookie next year.

We bought this bull out of the Iowa Beef Connection Sale. He was the high seller in 2010. We tested him lightly on some cows. He seems to work on just about any type of cow. I kept some heifers out of him. They are easy fleshing and moderate. He has a great deposition and the offspring are the same. You will see more out of this guy.

Final Answer is known for calving ease to high weaning numbers. It seems to work here. Calves were small at birth and grew pretty dang good through the summer. What I really noticed is the calves really converted well when they were weaned. The cattle seem to be structurally sound with adequate length and muscle. Reports say that the daughters are exceptional. We kept some back so time will tell. Several sons and grandsons sell.
