- PE to CL 1 Domino 0100X, 4-5-11 to 8-10-11 (4-21-11).
- Dam sells as Lot 43.
- Grandam sells as Lot 13.
- Top 10% for Milk, M&G and CHB, top 15% for WW and top 25% for YW and Marb.

A big, deep made 6105 daughter that is thick and massive. We feel heifers with length and volume like 044 have tended to make better cows. And it does not hurt to have a dam and grandam as good as these. Both are highly pigmented with super volume. Dam 736 has a 109 WR and +30 Milk.

LOT 151 • MONTANA MISS 044X

Pasture exposed to CL 1 Domino 0100X, 4-5-11 to 8-10-11 (4-21-11).

We sure hate to let this deep, long 521 daughter go. She is a pigmented heifer with lots of guts with a square rump and deep quarter. Dam 9071 was a Rock Creek cow we purchased from Holden's that stayed in the herd until she was 12 years old. We think 055 has the birth weight, performance, EPDs and milk to be a great cow.
