18th
Annual
Bull Sale

Spruce Hill Ranch Presents Combined Advantage

Wednesday, February 8, 2012 • 2:00 pm MT
Bowman Auction Market • Bowman, North Dakota

Welcome

We would like to welcome you to our 18th year selling two year old Angus bulls on Wednesday, February 8, 2012 at Bowman Auction Market, 2:00 PM MST. This is the first time these bulls have been offered to the public. This is a stellar set of bulls highlighted by a powerful set of AI sons of S Chisum 6175 and Connealy Lead On.

As in the past these bulls are born on western

South Dakota native pasture in April and May and even a few in June. They were weaned on the 29th of October, 2010. After weaning they were started on a 40 mcal ration consisting of CRP hay, alfalfa, dry distillers grain, cracked corn and a remesin premix from PNC Feeds. The first of June the bulls are turned out on small pastures and supplemented with this ration. We feel this allows them enough room to grow, exercise and settle any differences that arise. The first of October they are brought back into large lots and maintain the same ration through the sale. It's been our experience this program and the extra year to grow will provide you the longevity and problem free investment in your next herd bull.

Again this year we will be offering a group of Sim/Angus yearling bulls. These bulls offer the opportunity to utilize a British-Continental hybrid to maximize heterosis. The majority of these bulls are sons of our senior sire, JF Net Merit 618S. They are impressive from every angle and every number.

We would like to encourage you to come see these bulls any time and hope to see you February 8 at noon for lunch and sale at 2:00 PM, featuring Western Dakota's source of Rugged, Range Ready Angus Bulls.

Happy New Year!
Chad

General Information

Offering **59** Virgin Two Year Old
Angus Bulls
42 SimAngus Bulls
10 Yearling SimAngus Heifers
6 Yearling Angus Heifers
100 Angus Open Heifers

Sale Day Phones: 701-523-5922

Auctioneers: Lynn Weishaar, Reva, SD • 605-866-4670
Seth Weishaar • 605-892-2640 • Cell 602-210-1124

Representatives:

Vern Frey, American Angus Assoc., 701-721-0344

Dan Piourtek, Tri-State Livestock News, 605-544-3316

Chris Effling, Special Assignment, 605-769-0142

Health: At weaning these bulls received Vista once, SQ and Vision 7 with Spur and were poured. They were boosted a month later. We also vaccinate with Multimin supplement for additional copper. These bulls have been poured with Ivomec several times. Health certificates will be provided, if necessary.

Spruce Hill Management - Dr. William Rotenberger, DVM:

- Complete herd health programs available
- Ultrasound Pregnancy Testing - Fetal Aging; Carcass Evaluation
- Bangs Vaccination
- Semen Evaluation - *Every Spruce Hill Ranch bull sells with FREE life-time semen evaluations.

Terms: Cattle sell under the standard terms and conditions of the American Angus Association. All cattle will be at the purchaser's risk as soon as sold.

Brand Inspection: A brand inspector will be available Sale Day.

Guarantee: All bulls are guaranteed against any injury that would keep them from being a breeder for the first breeding season. If a problem occurs, please contact us immediately, a suitable replacement will be furnished or credit minus any salvage will be given toward next year's sale. The buyer will choose the preferred option. The guarantee does not cover the death of the bull. All claims must be made by Sept. 1, 2012. All two year olds have passed a semen evaluation exam. Yearling bulls will be semen tested prior to deliver May 1, 2012 or can be returned for a complimentary spring semen evaluation.

Retained Interest: Spruce Hill Angus is retaining 1/3 interest share in every bull selling in this sale. Full possession and full salvage value sell with the bull.

Delivery: As in the past, we are offering free delivery on all the bulls in the sale. You are welcome to take your bulls home sale day, however it would be our pleasure to deliver your bull(s). We would enjoy the opportunity to spend some time with you individually and see your operation.

Bulls can be kept at the ranch until May 1st. If you choose to leave your bulls with us, we will deliver them May 1st following a semen evaluation for an additional \$150 which will be collected sale day.

Registration: All bulls can be registered unless otherwise noted. If you would like your purchases registered and transferred in your name, let us know. We would be happy to do this for you. The American Angus Association is developing programs to help you market progeny from registered bulls. In order to qualify for programs, your herd bulls need to be transferred into your name. If you have questions about these programs or transferring papers, please ask, we will be glad to help.

Announcements: Announcements made sale day take precedence over any printed material.

ANY PERSON ATTENDING THE SALE DOES SO AT HIS OWN RISK. Neither the owners, nor any person connected with this sale assumes any liability, legal or otherwise.

Host Motels: Due to the rise in the local oil activity in the area, rooms are difficult to find. If you would like a reservation, please let us know as soon as possible.

I had the opportunity to see Chisum in the Spring of 2009 and was truly impressed with his three dimensional features. He is a cattleman's bull-deep, thick and mobile. On February 8th you will see how he stamped his sons with that same look. This may be one of the most impressive sire groups offered to date at Spruce Hill Ranch. 11 sons sell.

Commercial Replacement Heifers

We are selling 100 head of replacement heifers. This includes a select group of heifers from Glenn and Wayne Wegner (see above). They are the top cut of heifers from our commercial cow herd and some straight out of our registered herd. They have been Bangs vaccinated and poured with Ivomectrin. We will sort them by size and try to sell them in groups to fit buyer's needs.

~ ~ Two Year Old Angus Bulls ~ ~

Sired by Maier 112 Rito 703

REFERENCE SIRE C

703 (AKA MR.) was our pick out of the 2008 North Dakota Bull Test. He had a weaning weight of 835 and a 1323 pound final weight off test. He also scanned exceptionally well with an adjusted ribeye of 15.7 which ratioed 109, and a 5.07% IMF rationing 118. His progeny are maintaining a 115 IMF ratio which has given him a .60 marbling EPD and an impressive +54.54 dollar Beef value. MR is a very athletic, rugged 2250 pound bull that knows his job and does it well. 8 sons sell.

Magnum is one of the most exciting young sires ever used at Spruce Hill. He was the high selling bull at \$10,750 in the 2004 Falcon Seaboard production sale. He is tremendously thick, with great eye appeal and the performance to match. He had an actual weaning weight of 860 lbs. and a yearling weight of 1324 lbs. He scanned a 3.09 IMF and a 17.1 REA. He is sired by one of the most influential carcass sires in the breed, Rockn D Ambush. His dam, Boyd Forever Lady 8003, is a full sister to Boyd New Day, the recognized high growth, ribeye and maternal sire in the Genex/CRI lineup. 8003 sold in the Kahn Dispersion for \$90,000. She is also the mother to the very Popular SAV 8180 Traveler 004. Magnum's calves are born easy, show tremendous muscle shape, performance and style. This years sale of Magnum sons and grandsons will be our last for a few years as we explore new options for breeding his daughters. 16 sons and grandsons sell.

Athletic - made of big country.

How much can you afford to pay for a top bull?

COWBOY FORMULA

Increase in pounds per calf from a top-performance bull

X Number of cows bred to him per year

X Number of years to keep the bull

X Expected selling price of calves

= Additional dollars you can pay for a better bull

Example: A bull who will add 25 lbs. to the weaning weight of each of his calves mated to 25 cows per year for 4 years, and you sell the calves for \$1.10 per pound.

$$25 \times 25 = 625 \times 4 = 2500 \times 1.10 = \$2750$$

This bull is worth \$2750 more than the average bull who will keep your weaning weights the same.

Take this formula and put your own figures in and see what you can afford to pay. This equation does not even consider the increase in value due to calving-ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

I selected "Dakota Wind" as an outcross heifer bull from Leo Baker's sale in 2009. He has sired 40 progeny with a 98 birth weight ratio and a 101 weaning weight ratio. His sons and daughters are modest in their skeleton, easy fleshing and should confirm his birth EPD. 15 sons sell.

We selected Net Merit from Janssen's in Iowa in '07 as he was the sale topper at \$13,500. He is the cornerstone in our SimAngus program. He is extremely long spined, deep quartered, moderate and disposition second to none. His progeny are very impressive in all those factors as he stamps them with muscle, big hips, extra rib and power. Expect his sons to carry on the same characteristics as Merit. If you want to add or improve your herd in all those fields; add great carcass data and keep the females because they are extremely functional, fertile and gentle, consider SimAngus. 31 sons sell.

SimAngus

Videos of all sale animals available on the internet at www.combinedadvantage.net

Ultrasound data and scrotal measurements available on the internet prior to sale day - www.combinedadvantage.net

Comparing EPD's - We cannot compare the SimAngus numbers to the Angus numbers. The two associations have different systems and rankings. It would be nice if all breeds would have the same format, but they don't.

Heterosis - same as Hybrid Vigor - The Genetic Benefit you get from crossbreeding - lbs., health, fertility, vigor, etc.

~ ~ Yearling Sim Angus Heifers ~ ~

This year we have decided to offer a select group of Angus and Sim/Angus heifers. These are the best heifers out of both groups. As you will see several will make very good show prospects, and they all will make great cows. This may be your only chance to find April and May Angus heifers.

These heifers were weaned in two groups, the Sim heifers, excluding 107, 108 and 113 were weaned on October 11th. The Angus heifers along with 107, 108 and 113 were weaned on November 10th.

This is the first time we have ever offered females of this caliber. Don't miss this opportunity!!
