

Selling 160 Range Developed Bulls

Go to SodakAngus.com for an Online Catalog and Viewing of Bulls

Welcome to our 54th annual bull sale here at Sodak Angus. 2011 turned out to be a productive banner year for our industry with record cattle prices and an abundance of moisture for most of us in the northern plains states. We especially want to thank all our customers, friends and neighbors for their support of our breeding program. We truly cherish all the friendships we've made and appreciate your thoughts and advice which guide future decisions here at Sodak.

Reacting to customer needs, the Sodak cow herd has nearly completed the transition to a fall calving program to better accommodate the cattle with their environment and reduce labor needs. Fall calving is an ongoing challenge to the management processes (especially to one senior partner here at Sodak!) but the benefits have evolved into an environmentally compatible cow herd with moderate feed requirements and less labor intensive. Another direct benefit is a more sound and mature bull offering resulting from development on summer range during their peak growth period. In accordance with a longer development program the bulls are subjected to more rigorous culling for growth, soundness and disposition. Only the top of the bulls complete the 18 month ranch bull test and are ready to cover more cows in your pastures with fewer injuries.

This year's bull lineup includes a large selection from HARB Headliner, HA Program, Connealy Sullivan and Stevenson Bullseye in addition to our home sires by Upward, Future Direction, Windy and others. Red Angus sires include Red Native, CBR Rumbler, 5L Summit and home raised blood lines of Oscar and Bullseye. The offering consists of many half brothers capable of minimizing genetic variation and maximizing profit within your operations. Whether looking for a special herd sire or a truck load of bulls we believe you will find the selection to be second to none. As always Sodak bulls carry a first breeding season guarantee and are fed and delivered in the spring.

Our partner and fellow Angus breeders, Austin and Kari Risty and their family will have a very top notch selection of yearling Black Angus bulls here on sale day. Many are from Sodak dams and sired by intriguing U.S. and Scottish sires.

We thank you for your patronage and interest in the Sodak Program and we invite you to stop by early or on sale day to view this mature selection of Black Angus and Red Angus bulls. If we can be of any assistance whether sale day, prior to or throughout the coming year please call or stop for a visit.

Wishing you good health, friendship and prosperity,

Vaughn, Lois and Family

Welcome to the 55th Annual Spring Bull Sale. 2011 has proven to be another great year for agriculture and the future looks great for the beef industry. Input costs will remain the greatest challenge for our industry. Probably a greater challenge then typing this letter with Kohl (4), Brylee (2), and Anson (7 months) helping me!

This years 36 black yearling bulls are mostly mid-March calves with a few being April. They are all calving ease bulls and represent several different sires. They have been fed a high roughage ration to insure sound development.

All of the bull selections will be available online for viewing this year prior to the sale. We hope this will aid you in choosing your bull battery.

We thank you for your past business and look forward to seeing you on sale day. If you have any questions please give me a call at 605-866-4872.

Sincerely

Austin Risty & Family

Sodak Angus Ranch 55th Annual Bull Sale

Sunday, February 12, 2012

11:30 A.M. (MST) - Complimentary Lunch 1:00 P.M. (MST) - Sale Time At Sodak Angus Ranch, Reva, SD

SELLING:

114 Stout Black Angus Bulls 46 Powerful Red Angus Bulls

SALE DAY PHONES:

(605) 866-4426 (605) 866-4451

AUCTIONEER:

Lynn Weishaar (605) 866-4670

SALE REPRESENTATIVES:

Scott Dirk - Tri State Livestock News (605) 456-1499 Don Ravellette - Cattle Business Weekly (605) 685-5147 Vern Frey - American Angus Association

y - American Angus Association (701) 721-0344

PHONE BIDS

If you would like to place a bid on any lot but will not be able to be with us on sale day, please direct your mail or phone bid to a Sales Representative listed. On sale day they may be contacted at the sale day phone numbers listed above.

ANNOUNCEMENTS

Changes or errors will be announced by the owner or the auctioneer at the auction block.

Scrotal measurements and reproductive evaluation data will be available sale day.

LIABILITY

All persons attending the sale do so at their own risk, Sodak Angus assumes no liability, legal or otherwise for any accidents which may occur.

PRE-SALE VIEWING OF BULLS AT sodakangus.com

SALE LOCATION: At the Ranch, Reva, SD

From Prairie City, SD:

4 Miles West on HWY 20, then 6 miles South and 2 Miles West on Sorum Road

From Jct. 79 & 20 (East of Reva, SD) 6 miles South, 2 Miles East on Sorum Road

From Newell, SD:

HWY 79 Go North to mile marker 193, then 8 miles east on Sorum Road

ACCOMMODATIONS

Country Inn Motel, Bison, SD - (605) 244-5234 Tipperary Lodge, Buffalo, SD - (888) 917-5758

TERMS AND CONDITIONS

The cattle will sell under the standard terms and conditions as recommended by the American Angus Association.

HERD HEALTH

All bulls have been in a complete veterinary supervised health program and will be accompanied by health certificates for interstate shipment. All cattle are from a Johnes tested herd.

FEEDING AND DELIVERY

Sodak Angus will put the utmost care into each animal and deliver free 500 miles and beyond to central points in trailer loads. Each buyer will receive \$50 off each bull if loaded out on sale day. Sodak Angus will feed the bulls free until April 1, 2012 and deliver there after.

SEMEN INTEREST

Sodak Angus will retain one-third semen interest in all sale bulls.

ONLINE CATALOG

For more information or a catalog of Sodak genetics visit: sodakangus.com

VIEW SALE ONLINE AT: DVAuction.com

EPD's, in this catalog are calculated for registered animals by their respective breed association and non-registered progeny are parental averages.

\$Value Indexes, are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database, If the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Cow Energy Value (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.
